

Muntons PRESS RELEASE

More successes at Muntons

Congratulations must go to Dr David Mugglestone who has now successfully completed the BSI Registered Auditor Qualification as a lead auditor for the Quality Management System ISO 9001:2000.

The route to registration involved completing and passing the BSI Lead Assessors Course for ISO 9001:2000, completing the BSI Advanced Auditing Course and completing the qualifying review at Muntons with a BSI trained assessor- in all a very demanding course.

The presence of a BSI registered lead auditor within Muntons guarantees that internal auditing is not only effective and efficient but that best practice is always being followed.

Attaining this qualification means that Dr Mugglestone will also be able to train and improve the skills of Muntons' team of internal auditors and demonstrates their continued commitment to the ISO 9001:2000 Quality Management System.

As Dr Mugglestone so succinctly puts it "I am now more confident that Muntons internal audits will deliver business benefits relating to customer focus, customer requirements and will enhance continual improvement."

This latest success comes as a result of the structured training programme that Muntons have in place for its personnel, at all levels within their organisation. Muntons firmly believes in training, which they see as beneficial for both the individual and for the company.
