Muntons Technical Sales Support Manager Europe

New position

From the 1st September 2011, Jonathan Pritchard has taken on the role of Technical Sales Support Manager for Europe. Jon has been with Muntons for over nine years, heading the technical development team at our Stowmarket headquarters.

In his new position Jon will be providing one-to-one technical support across Europe working with our agents, distributors and customers to help find creative application solutions through the use of Muntons ingredients.

With a wealth of experience in both malted ingredients and production applications, Jon is confident that he will be able to help bring product improvements and even cost savings in a wide range of products. "Our ranges of ingredients are extensive, bringing numerous benefits to a host of product applications. In my new role I will be able to directly assist both our customers and our channel partners to better understand how our ingredients can be used in the most beneficial ways." He added "With our new European Sales Manager Bart Willems pro-actively focussing on the European food and baking industry, technical support will be needed even more and I am looking forward to the challenges that this will bring."
