Water Policy

Introduction

Muntons plc is a Malt and Malted Ingredients manufacturing business operating across three sites in the UK, at Stowmarket, Bridlington and Tithes Top and a plant in Thailand, supplying its products across the UK, Europe and the rest of the world. Raw materials are UK sourced and within 50 miles of each site.

Objectives

- Identify and manage water risks and opportunities arising from predicted changes in climate on our operations, our supply chain and customers.
- Set clear goals, targets, KPIs and accountabilities.
- Report regularly on our performance.
- Work with our interested parties as identified in our Management systems, to identify cost effective routes for mitigation and adaptation.
- Meet the requirements of all legislation applicable to us, together with our industry standards and regulatory requirements thus meeting our compliance obligations.

Policy in detail

Muntons plc is committed to the following:

- Alignment with international frameworks, standards, and widely-recognized water initiatives e.g. United Nations Sustainable Development Goal 6: Clean Water and Sanitation.
- Prevent, minimize, and control pollution.
- Reduce or phase-out hazardous substances.
- Reduce water withdrawal and/or consumption volumes in direct operations.
- Reduce water withdrawal and/or consumption volumes in supply chain.
- Safely managed Water, Sanitation and Hygiene (WASH) in the workplace.
- Water stewardship and/or collective action.
- Conservation of freshwater ecosystems.
- To go beyond regulatory compliance wherever possible.
- Maintain the continual improvement of environmental performance through the regular review of our management system.
- Include flood risk and mitigation measures as key considerations in future development viability assessments and ensure this is evaluated at key management meetings.
- Understand the financial implications of flood risk to the business.
- Developing the awareness of our Interested Parties around water-related issues through a continued prominent role in collaborative industry working groups.
- Customer education and colleague engagement in water-efficient behaviours.

Thank you
for your attention
